

AUTHOR INDEX

- Abate, A., *see* Kategille, J.A. et al.
- Abdullah, N. and Hutagalung, R.I. (Selangor, Malaysia)
 Rumen fermentation, urease activity and performance of cattle given palm kernel cake-based diet 79
- Adamu, A.M., Russell, J.R. and Trenkle, A. (Ames, IA, U.S.A.)
 Effects of ruminal degradability of the protein supplement on the utilization of maize-stover silage by growing beef cattle 241
- Adegbola, A.A., *see* Smith, O.B. et al.
- Aluyi, H.S.A., *see* Aregheore, E.M. et al.
- Alzueta, C., *see* González, G. et al.
- Åman, P., *see* Pettersson, D. and Åman, P.
- Aregheore, E.M., Job, T.A. (Ibadan, Nigeria) and Aluyi, H.S.A. (Warri, Nigeria)
 The maize replacement value of cassava flour in rations for growing ewe lambs 233
- Ashbell, G., *see* Weinberg, Z.G. et al.
- Asplund, J.M., *see* Bowman, J.G.P. and Asplund, J.M.
- Aufrère, J. and Michalet-Doreau, B. (Ceyrat, France)
 Comparison of methods for predicting digestibility of feeds 203
- Babatunde, G.M. (Ibadan, Nigeria) and Pond, W.G. (Clay Center, NE, U.S.A.)
 Nutritive value of Nigerian rubber seed (*Hevea brasiliensis*) meal and oil. III.
 Performance characteristics, relative organ weights, hematocrit and plasma metabolites of growing female rats fed corn diets containing rubber seed meal, soya bean meal or casein 125
- Barro, C., *see* González, G. et al.
- Barry, J.L., *see* Cherbut, C. et al.
- Barton, F.E., *see* Coelho, M. et al.
- Bowman, J.G.P. and Asplund, J.M. (Columbia, MO, U.S.A.)
 Evaluation of mixed lucerne and caucasian bluestem hay diets fed to sheep 19
 Nitrogen utilization, ruminal fermentation and abomasal nitrogen flow in sheep fed caucasian bluestem hay supplemented with lucerne or urea 33
- Capper, A.L. (Cambridge, Gt. Britain)
 Fungal contamination of hydroponic forage 163
- Carré, B., *see* Lacassagne, L. et al.
- Castaing, J., *see* Gatel, F. et al.
- Chandrasekaran, D., *see* Subramanian, P.R. et al.
- Cherbut, C., Barry, J.L., Wyers, M. and Delort-Laval, J. (Nantes, France)
 Effect of the nature of dietary fibre on transit time and faecal excretion in the growing pig 327
- Christison, G.I., *see* Mandell, I.B. et al.
- Coelho, M., Hembry, F.G., Saxton, A.M. (Baton Rouge, LA, U.S.A.) and Barton, F.E. (Athens, GA, U.S.A.)
 A comparison of microbial, enzymatic, chemical and near-infrared reflectance spectroscopy methods in forage evaluation 219
- Cohen, O., *see* Silanikove, N. et al.
- Coxworth, E.C., *see* Mandell, I.B. et al.
- De Groote, G., *see* Huyghebaert, G. et al.
- Delort-Laval, J., *see* Cherbut, C. et al.
- De Munter, G., *see* Huyghebaert, G. et al.
- Dinter, B., *see* Weinberg, Z.G. et al.

 The intake and digestion of maize silage-based diets by dairy cows and sheep 299
- Negi, S.S., *see* Makkar, H.P.S. et al.
- Nes, I.F., *see* Skrede, A. and Nes, I.F.
- Nicholson, H.H., *see* Mandell, I.B. et al.
- Onwudike, (Ile-Ife, Nigeria)
 Palm Kernel meal as a feed for poultry. 4. Use of palm kernel meal by laying birds 279
- Osafo, E.L.K., *see* Smith, O.B. et al.
- Pahlow, G., *see* Weinberg, Z.G. et al.
- Parrish, F.W., *see* Madacsi, J.P. et al.
- Pettersson, D. and Åman, P. (Uppsala, Sweden)
 Effects of enzyme supplementation of diets based on wheat, rye or triticale on their
 productive value for broiler chickens 313
- Pond, W.G., *see* Babatunde, G.M. et al.
- Roberts, D.J. (Dumfries, Gt. Britain)
 The substitution of grass silage by a straw and concentrate mixture for dairy cows 135
- Russell, J.R., *see* Adamu, A.M. et al.
- Salvador, A., *see* González, G. et al.
- Saxton, A.M., *see* Coelho, M. et al.
- Silanikove, N. (Kiryat Shmona, Israel), Cohen, O., Kugenheim, Y. (Tel Aviv, Israel),
 Levanon, D. and Kipnis, T. (Bet Dagan, Israel)
 Preservation and storage of green panic (*Panicum maximum*) as moist hay with urea 87
- Skrede, A. and Nes, I.F. (Ås-NLH, Norway)
 Slaughterhouse by-products preserved by *Lactobacillus plantarum* fermentation as feed
 for mink and foxes 287
- Smith, O.B., Osafo, E.L.K. and Adegbola, A.A. (Ile-Ife, Nigeria)
 Studies on the feeding value of agro-industrial by-products: strategies for improving the
 utilisation of cocoa-pod-based diets by ruminants 189
- Smith, O.B., *see* Kabaija, E. and Smith, O.B.
- Subramanian, P.R., Kadirvel, R., Viswanathan, K. and Chandrasekaran, D. (Madras,
 India)
 In vitro studies and short-term feeding trial in lambs to evaluate plantain sheath (*Musa
 sapientum*) as a feed for ruminants 343
- Trenkle, A., *see* Adamu, A.M. et al.
- Trigg, T.E., *see* Moran, J.B. et al.
- Viswanathan, K., *see* Subramanian, P.R. et al.
- Weinberg, Z.G., Ashbell, G., (Bet Dagan, Israel), Pahlow, G. and Dinter, B. (Braunschweig,
 F.R.G.)
 The effect of treatment with urea, sorbic acid, or dehydration on orange peel silage 335
- Wyers, M., *see* Cherbut, C. et al.
- Wyss, U. and Bickel, H. (Zürich, Switzerland)
 Ripe beans of *Canavalia ensiformis* (jackbean) as feed ingredient for monogastric
 animals 325

SUBJECT INDEX

| | |
|--|-----|
| Abomasum | |
| Nitrogen utilization, ruminal fermentation and abomasal nitrogen flow in sheep fed caucasian bluestem hay supplemented with lucerne or urea | 33 |
| Ammonia | |
| The effect of variation in the water content of wheat straw before ammoniation on its nutritive value for beef cattle | 111 |
| Barley | |
| The effects of barley, unmolassed sugar-beet pulp and molasses supplements on organic matter, nitrogen and fibre digestion in the rumen of cattle given a silage diet | 259 |
| By-products | |
| Slaughterhouse by-products preserved by <i>Lactobacillus plantarum</i> fermentation as feed for mink and foxes | 287 |
| Studies on the feeding value of agro-industrial by-products: strategies for improving the utilisation of cocoa-pod-based diets by ruminants | 189 |
| Casein | |
| Nutritive value of Nigerian rubber seed (<i>Hevea brasiliensis</i>) meal and oil. III. | |
| Performance characteristics, relative organ weights, hematocrit and plasma metabolites of growing female rats fed corn diets containing rubber seed meal, soya bean meal or casein | 125 |
| Cassava | |
| Net energy for gain (NE_{gain}) of cassava tops | 97 |
| The maize replacement value of cassava flour in rations for growing ewe lambs | 233 |
| Cattle | |
| A note on the use of sugar-beet pulp silage and molasses in the diet of lactating dairy cows | 13 |
| Effects of ruminal degradability of the protein supplement on the utilization of maize-stover silage by growing beef cattle | 241 |
| Rumen fermentation urease activity and performance of cattle given palm kernel cake-based diet | 79 |
| The effect of variation in the water content of wheat straw before ammoniation on its nutritive value for beef cattle | 111 |
| The effects of barley, unmolassed sugar-beet pulp and molasses supplements on organic matter, nitrogen and fibre digestion in the rumen of cattle given a silage diet | 259 |
| The intake and digestion of maize silage-based diets by dairy cows and sheep | 299 |
| The substitution of grass silage by a straw and concentrate mixture for dairy cows | 135 |
| Caucasian bluestem | |
| Evaluation of mixed lucerne and caucasian bluestem hay diets fed to sheep | 19 |
| Nitrogen utilization, ruminal fermentation and abomasal nitrogen flow in sheep fed caucasian bluestem hay supplemented with lucerne or urea | 33 |
| Chicken | |
| Effects of enzyme supplementation of diets based on wheat, rye or triticale on their productive value for broiler chickens | 313 |
| Palm kernel meal as a feed for poultry. 4. Use of palm kernel meal by laying birds | 279 |
| The metabolisable energy (AME_n) of fats for broilers in relation to their chemical composition | 45 |
| Treatment of low-tannin sorghum grain for broiler feed | 69 |
| Utilization of aquatic plants <i>Elodea canadensis</i> and <i>Hydrilla verticillata</i> in broiler chick diets | 155 |

| | |
|---|-----|
| Utilization of tannin-containing and tannin-free faba beans (<i>Vicia faba</i>) by young chicks: effects of pelleting feeds on energy, protein and starch digestibility | 59 |
| Cocoa | |
| Studies on the feeding value of agro-industrial by-products: strategies for improving the utilisation of cocoa-pod-based diets by ruminants | 189 |
| Cottonseed | |
| Chemical and biological evaluation of Nigerian cottonseed meal protein quality | 251 |
| Dehydration | |
| The effect of treatment with urea, sorbic acid, or dehydration on orange peel silage | 335 |
| Digestibility | |
| Comparison of methods for predicting digestibility of feeds | 203 |
| In vitro studies and short-term feeding trial in lambs to evaluate plantain sheath (<i>Musa sapientum</i>) as a feed for ruminants | 343 |
| Net energy for gain (NE_{gain}) of cassava tops | 97 |
| Ripe beans of <i>Canavalia ensiformis</i> (jackbean) as feed ingredient for monogastric animals | 325 |
| Utilization of tannin-containing and tannin-free faba beans (<i>Vicia faba</i>) by young chicks: effects of pelleting feeds on energy, protein and starch digestibility | 59 |
| Digestion | |
| Evaluation of mixed lucerne and caucasian bluestem hay diets fed to sheep | 19 |
| The effects of barley, unmolassed sugar-beet pulp and molasses supplements on organic matter, nitrogen and fibre digestion in the rumen of cattle given a silage diet | 259 |
| The intake and digestion of maize silage-based diets by dairy cows and sheep | 299 |
| <i>Elodea canadensis</i> | |
| Utilization of aquatic plants <i>Elodea canadensis</i> and <i>Hydrilla verticillata</i> in broiler chick diets | 155 |
| Energy | |
| Net energy for gain (NE_{gain}) of cassava tops | 97 |
| The metabolisable energy (AME_n) of fats for broilers in relation to their chemical composition | 45 |
| Utilization of tannin-containing and tannin-free faba beans (<i>Vicia faba</i>) by young chicks: effects of pelleting feeds on energy, protein and starch digestibility | 59 |
| Enzymes | |
| Effects of enzyme supplementation of diets based on wheat, rye or triticale on their productive value for broiler chickens | 313 |
| Rumen fermentation urease activity and performance of cattle given palm kernel cake-based diet | 79 |
| Faba bean | |
| Utilization of tannin-containing and tannin-free faba beans (<i>Vicia faba</i>) by young chicks: effects of pelleting feeds on energy, protein and starch digestibility | 59 |
| Faecal excretion | |
| Effect of the nature of dietary fibre on transit time and faecal excretion in the growing pig | 327 |
| Fat | |
| The metabolisable energy (AME_n) of fats for broilers in relation to their chemical composition | 45 |
| Fermentation | |
| Nitrogen utilization, ruminal fermentation and abomasal nitrogen flow in sheep fed caucasian bluestem hay supplemented with lucerne or urea | 33 |
| Rumen fermentation, urease activity and performance of cattle given palm kernel cake-based diet | 79 |

| | |
|--|-----|
| Slaughterhouse by-products preserved by <i>Lactobacillus plantarum</i> fermentation as feed for mink and foxes | 287 |
| Fibre | |
| Effect of the nature of dietary fibre on transit time and faecal excretion in the growing pig | 327 |
| The effects of barley, unmolassed sugar-beet pulp and molasses supplements on organic matter, nitrogen and fibre digestion in the rumen of cattle given a silage diet | 259 |
| Formaldehyde | |
| Complexes of urea and formaldehyde as non-protein nitrogen compounds in ruminant rations: a review | 1 |
| Forage | |
| Fungal contamination of hydroponic forage | 163 |
| The effect of age of regrowth on content and release of manganese, iron, zinc and copper from four tropical forages incubated in sacco in rumen of sheep | 171 |
| Forage evaluation | |
| A comparison of microbial, enzymatic, chemical and near-infrared reflectance spectroscopy methods in forage evaluation | 219 |
| Fox | |
| Slaughterhouse by-products preserved by <i>Lactobacillus plantarum</i> fermentation as feed for mink and foxes | 287 |
| Fungi | |
| Fungal contamination of hydroponic forage | 163 |
| Grass | |
| The substitution of grass silage by a straw and concentrate mixture for dairy cows | 135 |
| Growth | |
| Effects of enzyme supplementation of diets based on wheat, rye or triticale on their productive value for broiler chickens | 313 |
| Evaluation of mixed lucerne and caucasian bluestem hay diets fed to sheep | 19 |
| Feeding value of ensiled high-moisture maize grain with cob for growing-finishing pigs ... | 145 |
| Nutritive value of Nigerian rubber seed (<i>Hevea brasiliensis</i>) meal and oil. III. | |
| Performance characteristics, relative organ weights, hematocrit and plasma metabolites of growing female rats fed corn diets containing rubber seed meal, soya bean meal or casein | 125 |
| Ripe beans of <i>Canavalia ensiformis</i> (jackbean) as feed ingredient for monogastric animals | 325 |
| Rumen fermentation urease activity and performance of cattle given palm kernel cake-based diet | 79 |
| The maize replacement value of cassava flour in rations for growing ewe lambs | 233 |
| Hay | |
| Evaluation of mixed lucerne and caucasian bluestem hay diets fed to sheep | 19 |
| Nitrogen utilization, ruminal fermentation and abomasal nitrogen flow in sheep fed caucasian bluestem hay supplemented with lucerne or urea | 33 |
| Preservation and storage of green panic (<i>Panicum maximum</i>) as moist hay with urea | 87 |
| Hydrilla verticillata | |
| Utilization of aquatic plants <i>Elodea canadensis</i> and <i>Hydrilla verticillata</i> in broiler chick diets | 155 |
| Hydroponic forage | |
| Fungal contamination of hydroponic forage | 163 |
| Intake | |
| Net energy for gain (NE_{gain}) of cassava tops | 97 |

| | |
|--|-----|
| Ripe beans of <i>Canavalia ensiformis</i> (jackbean) as feed ingredient for monogastric animals | 325 |
| The intake and digestion of maize silage-based diets by dairy cows and sheep | 299 |
| Jackbean | |
| Ripe beans of <i>Canavalia ensiformis</i> (jackbean) as feed ingredient for monogastric animals | 325 |
| Lactic acid | |
| Slaughterhouse by-products preserved by <i>Lactobacillus plantarum</i> fermentation as feed for mink and foxes | 287 |
| Lucerne | |
| Evaluation of mixed lucerne and caucasian bluestem hay diets fed to sheep | 19 |
| Nitrogen utilization, ruminal fermentation and abomasal nitrogen flow in sheep fed caucasian bluestem hay supplemented with lucerne or urea | 33 |
| Maize | |
| Effects of ruminal degradability of the protein supplement on the utilization of maize-stover silage by growing beef cattle | 241 |
| Feeding value of ensiled high-moisture maize grain with cob for growing-finishing pigs ... | 145 |
| The intake and digestion of maize silage-based diets by dairy cows and sheep | 299 |
| The maize replacement value of cassava flour in rations for growing ewe lambs | 233 |
| Metals | |
| The effect of age of regrowth on content and release of manganese, iron, zinc and copper from four tropical forages incubated in sacco in rumen of sheep | 171 |
| Mink | |
| Slaughterhouse by-products preserved by <i>Lactobacillus plantarum</i> fermentation as feed for mink and foxes | 287 |
| Molasses | |
| A note on the use of sugar-beet pulp silage and molasses in the diet of lactating dairy cows | 13 |
| The effects of barley, unmolassed sugar-beet pulp and molasses supplements on organic matter, nitrogen and fibre digestion in the rumen of cattle given a silage diet | 259 |
| Monogastric animals, general | |
| Ripe beans of <i>Canavalia ensiformis</i> (jackbean) as feed ingredient for monogastric animals | 325 |
| Nitrogen | |
| Complexes of urea and formaldehyde as non-protein nitrogen compounds in ruminant rations: a review | 1 |
| Nitrogen utilization, ruminal fermentation and abomasal nitrogen flow in sheep fed caucasian bluestem hay supplemented with lucerne or urea | 33 |
| The effects of barley, unmolassed sugar-beet pulp and molasses supplements on organic matter, nitrogen and fibre digestion in the rumen of cattle given a silage diet | 259 |
| Nutritive value | |
| Feeding value of ensiled high-moisture maize grain with cob for growing-finishing pigs ... | 145 |
| Nutritive value of Nigerian rubber seed (<i>Hevea brasiliensis</i>) meal and oil. III. | |
| Performance characteristics, relative organ weights, hematocrit and plasma metabolites of growing female rats fed corn diets containing rubber seed meal, soya bean meal or casein | 125 |
| The effect of variation in the water content of wheat straw before ammoniation on its nutritive value for beef cattle | 111 |
| Orange | |
| The effect of treatment with urea, sorbic acid, or dehydration on orange peel silage | 335 |

| | |
|--|-----|
| Palm kernel | |
| Palm kernel meal as a feed for poultry. 4. Use of palm kernel meal by laying birds | 279 |
| Rumen fermentation urease activity and performance of cattle given palm kernel cake-based diet | 79 |
| Panic, green | |
| Preservation and storage of green panic (<i>Panicum maximum</i>) as moist hay with urea | 87 |
| Pig | |
| Effect of the nature of dietary fibre on transit time and faecal excretion in the growing pig | 327 |
| Feeding value of ensiled high-moisture maize grain with cob for growing-finishing pigs ... | 145 |
| Plantain sheath | |
| In vitro studies and short-term feeding trial in lambs to evaluate plantain sheath (<i>Musa sapientum</i>) as a feed for ruminants | 343 |
| Preservation | |
| Preservation and storage of green panic (<i>Panicum maximum</i>) as moist hay with urea | 87 |
| Slaughterhouse by-products preserved by <i>Lactobacillus plantarum</i> fermentation as feed for mink and foxes | 287 |
| Protein | |
| Chemical and biological evaluation of Nigerian cottonseed meal protein quality | 251 |
| Effects of ruminal degradability of the protein supplement on the utilization of maize-stover silage by growing beef cattle | 241 |
| Utilization of tannin-containing and tannin-free faba beans (<i>Vicia faba</i>) by young chicks: effects of pelleting feeds on energy, protein and starch digestibility | 59 |
| Yield and composition of protein concentrate press cake, green juice and solubles concentrate from wet fractionation of <i>Sophora japonica</i> , L. foliage | 177 |
| Rat | |
| Nutritive value of Nigerian rubber seed (<i>Hevea brasiliensis</i>) meal and oil. III. | |
| Performance characteristics, relative organ weights, hematocrit and plasma metabolites of growing female rats fed corn diets containing rubber seed meal, soya bean meal or casein | 125 |
| Ripe beans of <i>Canavalia ensiformis</i> (jackbean) as feed ingredient for monogastric animals | 325 |
| Rubber seed | |
| Nutritive value of Nigerian rubber seed (<i>Hevea brasiliensis</i>) meal and oil. III. | |
| Performance characteristics, relative organ weights, hematocrit and plasma metabolites of growing female rats fed corn diets containing rubber seed meal, soya bean meal or casein | 125 |
| Ruminal degradability | |
| Effects of ruminal degradability of the protein supplement on the utilization of maize-stover silage by growing beef cattle | 241 |
| Ruminants, general | |
| Complexes of urea and formaldehyde as non-protein nitrogen compounds in ruminant rations: a review | 1 |
| In vitro studies and short-term feeding trial in lambs to evaluate plantain sheath (<i>Musa sapientum</i>) as a feed for ruminants | 343 |
| Studies on the feeding value of agro-industrial by-products: strategies for improving the utilisation of cocoa-pod-based diets by ruminants | 189 |
| Rye | |
| Effects of enzyme supplementation of diets based on wheat, rye or triticale on their productive value for broiler chickens | 313 |

Sheep

| | |
|--|-----|
| Evaluation of mixed lucerne and caucasian bluestem hay diets fed to sheep | 19 |
| In vitro studies and short-term feeding trial in lambs to evaluate plantain sheath (<i>Musa sapientum</i>) as a feed for ruminants | 343 |
| Nitrogen utilization, ruminal fermentation and abomasal nitrogen flow in sheep fed caucasian bluestem hay supplemented with lucerne or urea | 33 |
| The effect of age of regrowth on content and release of manganese, iron, zinc and copper from four tropical forages incubated in sacco in rumen of sheep | 171 |
| The intake and digestion of maize silage-based diets by dairy cows and sheep | 299 |
| The maize replacement value of cassava flour in rations for growing ewe lambs | 233 |

Silage

| | |
|---|-----|
| A note on the use of sugar-beet pulp silage and molasses in the diet of lactating dairy cows | 13 |
| Effects of ruminal degradability of the protein supplement on the utilization of maize-stover silage by growing beef cattle | 241 |
| Feeding value of ensiled high-moisture maize grain with cob for growing-finishing pigs ... | 145 |
| The effect of treatment with urea, sorbic acid, or dehydration on orange peel silage | 335 |
| The intake and digestion of maize silage-based diets by dairy cows and sheep | 299 |
| The substitution of grass silage by a straw and concentrate mixture for dairy cows | 135 |

Sophora japonica

| | |
|--|-----|
| Yield and composition of protein concentrate press cake, green juice and solubles concentrate from wet fractionation of <i>Sophora japonica</i> , L. foliage | 177 |
|--|-----|

Sorbic acid

| | |
|--|-----|
| The effect of treatment with urea, sorbic acid, or dehydration on orange peel silage | 335 |
|--|-----|

Sorghum

| | |
|--|----|
| Treatment of low-tannin sorghum grain for broiler feed | 69 |
|--|----|

Soya bean

| | |
|--|-----|
| Nutritive value of Nigerian rubber seed (<i>Hevea brasiliensis</i>) meal and oil. III. | |
| Performance characteristics, relative organ weights, hematocrit and plasma metabolites of growing female rats fed corn diets containing rubber seed meal, soya bean meal or casein | 125 |

Spectroscopy

| | |
|--|-----|
| A comparison of microbial, enzymatic, chemical and near-infrared reflectance spectroscopy methods in forage evaluation | 219 |
|--|-----|

Storage

| | |
|--|----|
| Preservation and storage of green panic (<i>Panicum maximum</i>) as moist hay with urea | 87 |
|--|----|

Straw, general

| | |
|--|-----|
| The substitution of grass silage by a straw and concentrate mixture for dairy cows | 135 |
|--|-----|

Straw, wheat

| | |
|---|-----|
| The effect of variation in the water content of wheat straw before ammoniation on its nutritive value for beef cattle | 111 |
|---|-----|

Sugar beet

| | |
|---|-----|
| A note on the use of sugar-beet pulp silage and molasses in the diet of lactating dairy cows | 13 |
| The effects of barley, unmolassed sugar-beet pulp and molasses supplements on organic matter, nitrogen and fibre digestion in the rumen of cattle given a silage diet | 259 |

Supplementation

| | |
|---|-----|
| Effects of enzyme supplementation of diets based on wheat, rye or triticale on their productive value for broiler chickens | 313 |
| Effects of ruminal degradability of the protein supplement on the utilization of maize-stover silage by growing beef cattle | 241 |

| | |
|---|-----|
| The effects of barley, unmolassed sugar-beet pulp and molasses supplements on organic matter, nitrogen and fibre digestion in the rumen of cattle given a silage diet | 259 |
| Tannin | |
| Treatment of low-tannin sorghum grain for broiler feed | 69 |
| Utilization of tannin-containing and tannin-free faba beans (<i>Vicia faba</i>) by young chicks: effects of pelleting feeds on energy, protein and starch digestibility | 59 |
| Transit time | |
| Effect of the nature of dietary fibre on transit time and faecal excretion in the growing pig | 327 |
| Triticale | |
| Effects of enzyme supplementation of diets based on wheat, rye or triticale on their productive value for broiler chickens | 313 |
| Urea | |
| Complexes of urea and formaldehyde as non-protein nitrogen compounds in ruminant rations: a review | 1 |

CONTENTS OF ANIMAL FEED SCIENCE AND TECHNOLOGY, VOLUME 20

VOL. 20 NO. 1

APRIL 1988

Complexes of urea and formaldehyde as non-protein nitrogen compounds in ruminant rations:
a review

| | |
|--|----|
| H.P.S. Makkar, D. Lal and S.S. Negi (Palampur, India) | 1 |
| A note on the use of sugar-beet pulp silage and molasses in the diet of lactating dairy cows | |
| A. Karalazos and A. Giouzeljannis (Giannitsa, Greece) | 13 |
| Evaluation of mixed lucerne and caucasian bluestem hay diets fed to sheep | |
| J.G.P. Bowman and J.M. Asplund (Columbia, MO, U.S.A.) | 19 |
| Nitrogen utilization, ruminal fermentation and abomasal nitrogen flow in sheep fed caucasian bluestem hay supplemented with lucerne or urea | |
| J.G.P. Bowman and J.M. Asplund (Columbia, MO, U.S.A.) | 33 |
| The metabolisable energy (AME _n) of fats for broilers in relation to their chemical composition | |
| G. Huyghebaert, G. de Munter and G. de Groote (Merelbeke, Belgium) | 45 |
| Utilization of tannin-containing and tannin-free faba beans (<i>Vicia faba</i>) by young chicks: effects of pelleting feeds on energy, protein and starch digestibility | |
| L. Lacassagne, B. Carré, (Monnaie, France), M. Francesh (Tarragona, Spain) and J.P. Melcion (Nantes, France) | 59 |
| Treatment of low-tannin sorghum grain for broiler feed | |
| J.P. Madacsi, F.W. Parrish (New Orleans, LA, U.S.A.) and J.L. McNaughton (Mississippi State, MS, U.S.A.) | 69 |

Short Communication

| | |
|--|----|
| Rumen fermentation, urease activity and performance of cattle given palm kernel cake-based diet | |
| N. Abdullah and R.I. Hutagalung (Selangor, Malaysia) | 79 |

VOL. 20 NO. 2

MAY 1988

| | |
|---|-----|
| Preservation and storage of green panic (<i>Panicum maximum</i>) as moist hay with urea | |
| N. Silanikove (Kiryat Shmona, Israel), O. Cohen, Y. Kugenheim (Tel Aviv, Israel), D. Levanon and T. Kipnis (Bet Dagan, Israel) | 87 |
| Net energy for gain (NE _{gain}) of cassava tops | |
| J.A. Kategile, J.G.J. Mngulwi (Morogoro, Tanzania) and A. Abate (Nairobi, Kenya) | 97 |
| The effect of variation in the water content of wheat straw before ammoniation on its nutritive value for beef cattle | |
| I.B. Mandell, G.I. Christison, H.H. Nicholson and E.C. Coxworth (Saskatoon, Sask., Canada) | 111 |
| Nutritive value of Nigerian rubber seed (<i>Hevea brasiliensis</i>) meal and oil. III. Performance characteristics, relative organ weights, hematocrit and plasma metabolites of growing female rats fed corn diets containing rubber seed meal, soya bean meal or casein | |
| G.M. Babatunde (Ibadan, Nigeria) and W.G. Pond (Clay Center, NE, U.S.A.) | 125 |

| | |
|--|-----|
| The substitution of grass silage by a straw and concentrate mixture for dairy cows D.J. Roberts (Dumfries, Gt. Britain) | 135 |
| Feeding value of ensiled high-moisture maize grain with cob for growing-finishing pigs F. Gatel (Vendôme, France), F. Grosjean (Paris, France) and J. Castaing (Serres Castet, France) | 145 |
| Utilization of aquatic plants <i>Elodea canadensis</i> and <i>Hydrilla verticillata</i> in broiler chick diets L.C. Lizama, J.E. Marion and L.R. McDowell (Gainesville, FL, U.S.A.) | 155 |
| Fungal contamination of hydroponic forage A.L. Capper (Cambridge, Gt. Britain) | 163 |

Short Communication

| | |
|---|-----|
| The effect of age of regrowth on content and release of manganese, iron, zinc and copper from four tropical forages incubated in sacco in rumen of sheep E. Kabaija and O.B. Smith (Ile-Ife, Nigeria) | 171 |
|---|-----|

VOL. 20 NO. 3

JUNE 1988

| | |
|---|-----|
| Yield and composition of protein concentrate, press cake, green juice and solubles concentrate from wet fractionation of <i>Sophora japonica</i> , L. foliage G. González, C. Alzueta, C. Barro and A. Salvador (Madrid, Spain) | 177 |
| Studies on the feeding value of agro-industrial by-products: strategies for improving the utilisation of cocoa-pod-based diets by ruminants O.B. Smith, E.L.K. Osafo and A.A. Adegbola (Ile-Ife, Nigeria) | 189 |
| Comparison of methods for predicting digestibility of feeds J. Aufrère and B. Michalet-Doreau (Ceyrat, France) | 203 |
| A comparison of microbial, enzymatic, chemical and near-infrared reflectance spectroscopy methods in forage evaluation M. Coelho, F.G. Hembry, A.M. Saxton (Baton Rouge, LA, U.S.A.) and F.E. Barton (Athens, GA, U.S.A.) | 219 |
| The maize replacement value of cassava flour in rations for growing ewe lambs E.M. Aregheore, T.A. Job (Ibadan, Nigeria) and H.S.A. Aluyi (Warri, Nigeria) | 233 |
| Effects of ruminal degradability of the protein supplement on the utilization of maize-stover silage by growing beef cattle A.M. Adamu, J.R. Russell and A. Trenkle (Ames, IA, U.S.A.) | 241 |
| Chemical and biological evaluation of Nigerian cottonseed meal protein quality S.A. Ikurior (Vom, Nigeria) and B.L.A. Fetuga (Ibadan, Nigeria) | 251 |

VOL. 20 NO. 4

JULY 1988

| | |
|---|-----|
| The effects of barley, unmolassed sugar-beet pulp and molasses supplements on organic matter, nitrogen and fibre digestion in the rumen of cattle given a silage diet P. Huhtanen (Helsinki, Finland) | 259 |
| Palm kernel meal as a feed for poultry. 4. Use of palm kernel meal by laying birds O.C. Onwudike (Ile-Ife, Nigeria) | 279 |
| Slaughterhouse by-products preserved by <i>Lactobacillus plantarum</i> fermentation as feed for mink and foxes A. Skrede and I.F. Nes (Ås-NLH, Norway) | 287 |
| The intake and digestion of maize silage-based diets by dairy cows and sheep J.B. Moran, C. Lemerle and T.E. Trigg (Kyabram, Vic., Australia) | 299 |
| Effects of enzyme supplementation of diets based on wheat, rye or triticale on their productive | |

| | |
|---|-----|
| value for broiler chickens | |
| D. Pettersson and P. Åman (Uppsala, Sweden) | 313 |

Short Communications

| | |
|--|-----|
| Ripe beans of <i>Canavalia ensiformis</i> (jackbean) as feed ingredient for monogastric animals | |
| U. Wyss and H. Bickel (Zürich, Switzerland) | 325 |
| Effect of the nature of dietary fibre on transit time and faecal excretion in the growing pig | |
| C. Cherbut, J.L. Barry, M. Wyers and J. Delort-Laval (Nantes, France) | 327 |
| The effect of treatment with urea, sorbic acid, or dehydration on orange peel silage | |
| Z.G. Weinberg, G. Ashbell (Bet Dagan, Isreal), G. Pahlow and B. Dinter (Braunschweig, F.R.G.) | 335 |
| In vitro studies and short-term feeding trial in lambs to evaluate plantain sheath (<i>Musa sapientum</i>) as a feed for ruminants | |
| P.R. Subramanian, R. Kadirvel, K. Viswanathan and D. Chandrasekaran (Madras, India) | 343 |
